Shanghai, Aug 19, 2021, 360 DigiTech, Inc. (QFIN) (“360 DigiTech” or the “Company”), a leading financial technology platform in China, today announced its unaudited financial results for the second quarter ended June 30, 2021.

Second Quarter 2021 Business Highlights

- As of June 30, 2021, our digital platform has connected 108 financial institutional partners and 175.9 million consumers^{*1} with potential credit needs, cumulatively, an increase of 18.1% from 149.0 million a year ago.
- Cumulative users with approved credit lines^{*2} was 34.7 million as of June 30, 2021, an increase of 25.3% from 27.7 million as of June 30, 2020.
- Cumulative borrowers with successful drawdown, including repeat borrowers was 22.3 million as of June 30, 2021, an increase of 25.3% from 17.8 million as of June 30, 2020.
- In the second quarter of 2021, financial institutional partners originated 27,714,920 loans^{*3}, totaling RMB88,452 million^{*4} through our platform, an increase of 50.2% from RMB58,905 million in the same period of 2020.
- Out of those loans originated by financial institutions, RMB49,638 million was under capital-light model and other technology solutions, representing 56.1% of the total, an increase of 213.3% from RMB15,844 million in the same period of 2020.
- Total outstanding balance^{*5} of the loans originated by financial institutional partners through our platform was RMB117,559 million as of June 30, 2021, an increase of 49.8% from RMB78,480 million as of June 30, 2020.
- RMB58,187 million of such loan balance was under capital-light model and other technology solutions, an increase of 186.4% from RMB20,316 million as of June 30, 2020.
- Financial institutions granted approximately RMB7.1 billion credit lines to small and micro-sized enterprises (SMEs)^{*6} through our platform in the second quarter of 2021, an increase of 22.4% from approximately RMB5.8 billion in the prior quarter.
- The weighted average contractual tenor of loans originated by financial institutions across our platform in the second quarter of 2021 was approximately 10.66 months, compared with 9.57 months in the same period of 2020.
- 90 day+ delinquency ratio^{*7} of loans originated by financial institutions across our platform was 1.19% as of June 30, 2021.
- Repeat borrower contribution^{*8} of loans originated by financial institutions across our platform for the second quarter of 2021 was 88.7%.

1 Refers to cumulative registered users across our platform.

2 “Users with approved credit lines” refers to the total number of users who had submitted their credit applications and were approved with a credit line by the Company at the end of each period.

3 Including 13,300,248 loans across “V-pocket”, and 14,414,672 loans across other products.

4 Refers to the total principal amount of loans facilitated and originated during the given period, including loans volume facilitated through Intelligence Credit Engine (“ICE”) and other technology solutions. “ICE” is an open platform on our “360 Jietiao” APP, we match borrowers and financial institutions through big data and cloud computing technology on “ICE”, and provide pre-loan investigation report of borrowers. For loans facilitated through “ICE”, the Company do not provide post-loan risk management nor bear principal risk.

5 “Total outstanding loan balance” refers to the total amount of principal outstanding for loans facilitated and originated at the end of each period, including loan balance for “ICE” and other technology solutions, excluding loans delinquent for more than 180 days.

6 SME loans are Loans issued to SMEs with e-commerce operations, with business sales receipt, and/or with business taxation record.

7 “90 day+ delinquency ratio” refers to the outstanding principal balance of on- and off-balance sheet loans that were 90 to 179 calendar days past due as a percentage of the total outstanding principal balance of on- and off-balance sheet loans across our platform as of a specific date. Loans that are charged-off and loans under “ICE” and other technology solutions are not included in the delinquency rate calculation.

8 “Repeat borrower contribution” for a given period refers to (i) the principal amount of loans borrowed during that period by borrowers who had historically made at least one successful drawdown, divided by (ii) the total loan facilitation and origination volume through our platform during that period.

Second Quarter 2021 Financial Highlights

- Non-GAAP net income increased by 71.4% to RMB1,615.2 million (US\$250.2 million) from RMB942.1 million in the same period of 2020.
- Net income margin was 38.7%. Non-GAAP net income margin was 40.4%.

9 Non-GAAP income from operations (Adjusted Income from operations), Non-GAAP net income (Adjusted net income), Non-GAAP operating margin and Non-GAAP net income margin are non-GAAP financial measures. For more information on this non-GAAP financial measure, please see the section of "Use of Non-GAAP Financial Measures Statement" and the table captioned "Unaudited Reconciliations of GAAP and Non-GAAP Results" set forth at the end of this press release.

Mr. Haisheng Wu, Chief Executive Officer and Director of 360 DigiTech, commented, "We are very pleased to report another record setting quarter that exceeded our expectations across multiple fronts of operations. During the quarter, financial institutions originated RMB88.5 billion loans through our platform, up 50% year-on-year. Approximately 56% of the loans was facilitated under the capital-light model and other technology solutions^{*10}, further demonstrating the attractiveness of our capital-light models to financial institutions, and marking continued success in our technology driven strategic transition and upgrading.

"Our embedded finance model gained further popularity among our business partners with 22 leading traffic platforms on board by the quarter ending, contributing approximately 39% of new users with approved credit lines for the quarter. On the SME front, we continued to ramp the operations nicely with 22% sequential growth as the number of new SME borrowers grew rapidly. Our strategic collaboration with Kincheng Bank of Tianjin Co., Ltd. ("KCB") also progressed smoothly and KCB remained our largest institution partner in terms of loan facilitation volume.

"In the first half of 2021, we delivered robust growth in key operational and financial metrics as we gained market share in a relatively stable macro environment. As we enter the second half of the year, we continue to experience strong customer demand, despite some uncertainties in macro environment. We strongly believe recent regulatory actions will ultimately provide additional policy clarity for a more healthy and consolidated industry and benefit leading platforms like us. Our stress tests indicate that even under the more restrictive regulatory guidelines we should be able to maintain healthy growth and profitability in the coming quarters and years. As our strategic initiatives have achieved outstanding results across our operations thus far, we feel more confident than ever to become one of the premium financial technology platforms in the long run."

"We are very pleased to report another quarter of record financial results. Total revenue was RMB4.0 billion and non-GAAP net income reached RMB1.62 billion. The robust financial performance was driven by better than expected credit demand by consumers and SMEs, further progress in our business initiatives, and solid overall executions," Mr. Alex Xu, Chief Financial Officer, commented. "Continued improvement in asset quality, and increased contribution from capital light model continued to drive noticeable improvement in operating margins for the quarter. As we close the stronger than expected first half 2021, we see continued business momentum into the current quarter thus far, which gives us increased confidence to exceed our previous operational targets for 2021."

Mr. Yan Zheng, Chief Risk Officer, added, "Our key risk management metrics remained at the best level in history during the quarter as overall asset quality continued to improve. Among the key leading indicators, Day-1 delinquency^{*11} remained at a record low of approximately 5.0% in the second quarter, while the 30-day collection rate^{*12} staying above 90%, the best levels too. More encouragingly, risk management metrics for the SME business have performed better than we expected thus far, as we rapidly ramp the business. Although we will continue to take prudent approach in overall risk management operations, the effectiveness of our risk management systems should enable us to deliver strong growth of business while maintaining outstanding overall asset quality in the foreseeable future."

10 "We've used mainly data technology tools and AI risk management systems in the process of providing such services as loan facilitation, post-facilitation and borrowers' referral to our customers. Revenue from these technology powered services amount to 53% of our total net revenue. "

11 "D1 delinquency rate" is defined as (i) the total amount of principal that became overdue as of a specified date, divided by (ii) the total amount of principal that was due for repayment as of such date.

12 "M1 collection rate" is defined as (i) the amount of principal that was repaid in one month among the total amount of principal that became overdue as a specified date, divided by (ii) the total amount of principal that became overdue as a specified date.

Second Quarter 2021 Financial Results

Total net revenue was RMB4,001.6 million (US\$619.8million), compared to RMB3,340.1 million in the same period of 2020, and RMB3,599.2 million in the prior quarter.

Net revenue from Credit Driven Services was RMB2,404.7million (US\$372.4 million), compared to RMB3,081.1 million in the same period of 2020, and RMB2,451.3 million in the prior quarter.

Loan facilitation and servicing fees-capital heavy were RMB540.7 million (US\$83.7 million), compared to RMB1,353.9 million in the same period of 2020 and RMB724.3 million in the prior quarter. The year-over-year and sequential declines were in part due to declined loan volume under capital heavy model.

Financing income^{*13} was RMB488.1 million (US\$75.6 million), compared to RMB628.1 million in the same period of 2020 and RMB409.4 million in the prior quarter. The year-over-year and sequential changes reflected changes in on-balance sheet loans.

Revenue from releasing of guarantee liabilities was RMB1,352.3 million (US\$209.4 million), compared to RMB1,076.6 million in the same period of 2020, and RMB1,295.4 million in the prior quarter. The year-over-year and sequential growth was mainly due to increase in average outstanding balance of off-balance-sheet capital-heavy loans during the period.

Other services fees were RMB23.6 million (US\$3.6 million), compared to RMB22.6 million in the same period of 2020, and RMB22.2 million in the prior quarter. The year-over-year and sequential increases were primarily due to fluctuation of late payment fees.

Net revenue from Platform Services was RMB1,596.9 million (US\$247.3 million), compared to RMB258.9 million in the same period of 2020 and RMB1,147.9 million in the prior quarter.

Loan facilitation and servicing fees-capital light were RMB1,398.7 million (US\$216.6 million), compared to RMB178.6 million in the same period of 2020 and RMB993.9 million in the prior quarter. The year-over-year and sequential growth was primarily due to growth in loan facilitation volume under capital-light model.

Referral services fees were RMB160.3 million (US\$24.8 million), compared to RMB64.5 million in the same period of 2020 and RMB126.3 million in the prior quarter. The year-over-year and sequential increases were primarily due to the facilitation volume growth through ICE.

Other services fees were RMB37.9 million (US\$5.9 million), compared to RMB15.9 million in the same period of 2020 and RMB27.6 million in the prior quarter. The year-over-year and sequential increases were mainly due to growth in late payment fees as loan facilitation volume under capital-light model increased.

Total operating costs and expenses were RMB2,148.4 million (US\$332.8 million), compared to RMB2,346.8 million in the same period of 2020 and RMB2,041.4 million in the prior quarter.

Facilitation, origination and servicing expenses were RMB558.0 million (US\$86.4 million), compared to RMB399.8 million in the same period of 2020 and RMB477.8 million in the prior quarter. The year-over-year and sequential increases was primarily due to growth in loan facilitation and origination volume.

Funding costs were RMB83.2 million (US\$12.9 million), compared to RMB161.1 million in the same period of 2020 and RMB79.1 million in the prior quarter. The year-over-year decline was mainly due to increased funding contribution from ABS with lower cost and decrease in on-balance sheet loans. The sequential increase was primarily due to increase in outstanding balance of on-balance sheet loans.

Sales and marketing expenses were RMB499.9 million (US\$77.4 million), compared to RMB269.1 million in the same period of 2020 and RMB385.0 million in the prior quarter. The year-over-year and sequential increases were mainly due to a more proactive customer acquisition strategy, development of new customer acquisition channels, and higher online traffic costs as overall business activities continued to expand in China.

General and administrative expenses were RMB139.3 million (US\$21.6 million), compared to RMB109.5 million in the same period of 2020 and RMB104.5 million in the prior quarter. The year-over-year and sequential increases were primarily due to expanded business operations.

Provision for loans receivable was RMB247.0 million (US\$38.3 million), compared to RMB218.6 million in the same period of 2020 and RMB134.9 million in the prior quarter. The year-over-year and sequential increases mainly reflect the Company's consistent approach in assessing provisions commensurate with its underlying loan profile.

Provision for financial assets receivable was RMB58.5 million (US\$9.1 million), compared to RMB79.2 million in the same period of 2020 and RMB45.1 million in the prior quarter. The year-over-year decline was primarily due to decrease in facilitation volume under capital-heavy model. The sequential increase reflects the Company's consistent approach in assessing provisions commensurate with its underlying loan profile.

Provision for accounts receivable and contract assets was RMB100.7 million (US\$15.6 million), compared to RMB90.8 million in the same period of 2020 and RMB56.4 million in the prior quarter. The year-over-year and sequential increases were primarily due to growth in loan facilitation volume and in part due to the Company's consistent approach in assessing provisions commensurate with its underlying loan profile.

Provision for contingent liability was RMB461.9 million (US\$71.5 million), compared to RMB1,018.9 million in the same period of 2020 and RMB758.7 million in the prior quarter. The year-over-year and sequential declines were mainly due to loans facilitated in prior quarters performed better than expected.

Income from operations was RMB1,853.1 million (US\$287.0 million), compared to RMB993.2 million in the same period of 2020 and RMB1,557.8 million in the prior quarter.

Non-GAAP income from operations was RMB1,920.4 million (US\$297.4 million), compared to RMB1,058.9 million in the same period of 2020 and RMB1,617.3 million in the prior quarter.

Operating margin was 46.3%. **Non-GAAP operating margin** was 48.0%.

Income before income tax expense was RMB1,953.2 million (US\$302.5 million), compared to RMB1,042.7 million in the same period of 2020 and RMB1,605.3 million in the prior quarter.

Share Repurchase Plan

The board of directors of the Company has approved a share repurchase program whereby the Company is authorized to repurchase up to US\$200 million worth of its Class A ordinary shares in the form of American depositary shares over the next twelve-month period. The Company's proposed repurchases may be made from time to time in the open market at prevailing market prices, in privately negotiated transactions, in block trades and/or through other legally permissible means, depending on market conditions and in accordance with applicable rules and regulations. The Company expects to fund the repurchase out of its existing cash balance.

Business Outlook

While we intend to keep our tradition of prudent decision making and business planning, we are encouraged by strong operating metrics in the first half of 2021. We see continued healthy growth for the rest of the year. As such we now expect total loan facilitation and origination volume for 2021 to be between RMB340 billion and RMB350 billion, compared to our previous guidance of between RMB310 billion and RMB330 billion, representing year-on-year growth of 38% to 42%. This forecast reflects the Company's current and preliminary views, which is subject to material change.

Use of Non-GAAP Financial Measures Statement

To supplement our financial results presented in accordance with U.S. GAAP, we use non-GAAP financial measure, which is adjusted from results based on U.S. GAAP to exclude share-based compensation expenses. Reconciliations of our non-GAAP financial measures to our U.S. GAAP financial measures are set forth in tables at the end of this earnings release, which provide more details on the non-GAAP financial measures.

We use non-GAAP income from operation, non-GAAP operation margin, non-GAAP net income, non-GAAP net income margin, Non-GAAP net income attributed to the Company and Non-GAAP net income per fully diluted ADS in evaluating our operating results and for financial and operational decision-making purposes. Non-GAAP income from operation represents income from operation excluding share-based compensation expenses, non-GAAP net income represents net income excluding share-based compensation expenses, non-GAAP net income attributed to the Company represents net income attributed to the Company excluding share-based compensation expenses and non-GAAP net income per fully diluted ADS represents net income per fully diluted ADS excluding share-based compensation. Such adjustments have no impact on income tax. We believe that non-GAAP income from operation and non-GAAP net income help identify underlying trends in our business that could otherwise be distorted by the effect of certain expenses that we include in results based on U.S. GAAP. We believe that non-GAAP income from operation and non-GAAP net income provide useful information about our operating results, enhance the overall understanding of our past performance and future prospects and allow for greater visibility with respect to key metrics used by our management in its financial and operational decision-making. Our non-GAAP financial information should be considered in addition to results prepared in accordance with U.S. GAAP, but should not be considered a substitute for or superior to U.S. GAAP results. In addition, our calculation of non-GAAP financial information may be different from the calculation used by other companies, and therefore comparability may be limited.
